ACADEMIC WORK EXPERIENCE

2023–Present Research Engineer (Senior), Nanyang Technological University, School of Social Sciences, Visual Cognitive Neuroscience Lab

- Researcher Performance Evaluation 2023–2025: Far Exceeds Expectations; the highest performance rating for academic research staff at the university.

2022–2023 Research Associate and Lab Manager, Nanyang Technological University, National Institute of Education

EDUCATION

2017–2022 Concurrent Degree Programme [M.Soc.Sci. (Psychology) & B.Soc.Sci. (Honours with Highest Distinction)]

National University of Singapore

- Graduate CAP: 4.83/5.00. Undergraduate CAP: 4.50/5.00
- Research Modules: Independent Research Project (Grade: A+); Undergraduate Research Opportunity (Grade: A+); Lab in Social Psychology (Grade: A+)
- Summer Exchange: Harvard University (2019); Yale University (2018)

AWARDS AND HONOURS

2026 Responsible Conduct of Research Champion Award, Nanyang Technological University

2025 Best Research Design Award, Asian Conference of Criminal and Operations Psychology

2024 Top 50 of 10,500 Abstracts, Society for Neuroscience Annual Meeting

2019 Dean's Scholar List (Top 1%), National University of Singapore

2019 Dean's List (Top 5%), National University of Singapore

2018 US-Singapore Summer Exchange Scholarship (SGD 10,000), Ministry of Foreign Affairs

RESEARCH GRANTS

2026–2027 National Youth Fund Research Grant (Role: Principal Investigator), "*How and Why are Youths Using Generative AI to Harm Others?*" [Under Review], National Youth Council, Ministry of Culture, Community and Youth, SGD $25,000

RESEARCH OVERVIEW

I am one of the top psychology graduates and student leaders from the National University of Singapore, and among the top-performing academic research staff at Nanyang Technological University, where I have more than three years of full-time experience. I have led multiple academic research projects, including international research collaborations, developing methodological expertise in statistical, computational, and AI/ML approaches. My current research interests include human–AI interaction, AI psychology, computational social science, and agentic AI.
